2. Introduction

0

Each year the Municipality produces an annual budget which must be approved by Council. In practice, as the year progresses, circumstances may change so that certain estimates are under-budgeted and others over-budgeted due to unforeseen expenditure (For example, due to occurrence of disasters) or savings. As a result, it becomes necessary to transfer funds between votes and line items.

It is not practical to refer all transfers between line items within a specific vote to the council, and as the local Government: Municipal Finance Management Act ("MFMA") is largely silent as to such transfers, it is necessary to establish a policy which governs the administrative transfer between line items.

3. Purpose

The purpose of this Policy is therefore to provide a framework to give the Heads of Departments greater flexibility in managing their budgets whereby certain transfers between line items within votes and between votes may be performed with the approval of certain delegated officials.

4. Application of Policy

4.1 This policy, with certain limitations, applies to both transfers within Votes and between votes of the Municipality's budget.

4.2 Section 28(2) (d) of the MFMA provides that "An adjustments budget...may authorise the utilization of projected savings in one vote towards spending in another vote." However, Virements between votes should be permitted where the proposed shifts in funding facilitate sound risk and financial management (e.g. the management of central insurance funds and insurance claims from separate votes)

4.9 Virements of conditional grant funds to purposes outside of that specified in the relevant conditional grant framework must not be permitted.

Any deviation from or adjustment to an annual budget or transfer within a budget which is not specifically permitted under this policy or any other policy may not be performed unless approved by the council through an adjustments budget.
